GENERAL

The following pages of this Service and Warranty Information booklet set out the requirements and the warranties you will receive as a Mercedes-Benz owner in accordance with the terms and conditions set out below.

These warranties apply to vehicles distributed by Mercedes-Benz Canada Inc. and which are sold by an authorized Mercedes-Benz dealer in Canada and normally operated in Canada.

Your vehicle is covered under the terms of the warranties described below and any authorized Mercedes-Benz dealer will correct, repair or replace any defective parts or components at no cost to you subject to the terms and conditions of the warranties set out below.

REPLACEMENT PARTS FOR YOUR MERCEDES-BENZ

Genuine Mercedes-Benz parts, exchange or remanufactured parts or components and factory-approved accessories are the recommended replacement parts or components for your Mercedes-Benz vehicle and are available through your authorized Mercedes-Benz dealership. Such parts meet the quality standards established by Mercedes Benz for your vehicle and comply with all applicable federal safety and emissions standards.

Mercedes-Benz does not warrant non-Mercedes-Benz parts, components or accessories and the use or installation of such non-Mercedes-Benz parts or components may affect warranty coverage for certain repairs relating to those parts, components or and accessories.

Please consult your authorized Mercedes-Benz dealership for warranty service and other information about your vehicle. Also, ask your dealership about exchange parts under the Mercedes-Benz Exchange Program. These parts cost less than new parts but carry the same warranty terms.

ITEMS THAT ARE COVERED:

DEFECTS IN MATERIAL OR WORKMANSHIP. Mercedes-Benz AG (“**Mercedes-Benz**”) warrants to the original and each subsequent owner of a new Mercedes-Benz vehicle sold by an authorized Mercedes-Benz dealer in Canada and normally operated in Canada, that, subject to the terms and conditions of this New Vehicle Limited Warranty, any authorized Mercedes-Benz Dealer will make any repairs or replacements necessary to correct any defect in material or workmanship, but not design, during the warranty period.

Mercedes-Benz’s administrator for warranty claims in Canada is Mercedes-Benz Canada Inc. (“**MBC**”).

ANY MERCEDES-BENZ DEALER: To make a warranty claim, you must bring your vehicle to an authorized Mercedes-Benz dealer in Canada (“authorized Mercedes-Benz Dealer” or “**Dealer**”) so that an inspection and diagnosis can be performed of your vehicle to determine whether it is necessary to repair or correct a defect in material or workmanship. Your Dealer will perform any necessary warranty repairs or replacements at no cost to you in accordance with the terms and conditions of this Warranty. Your vehicle should be delivered to your Dealer during normal service hours and a reasonable time should be allowed after taking the vehicle to permit the Dealer to perform the necessary repairs or corrections. New Vehicle Limited Warranty – Things you should know

Mercedes-Benz will make any repairs or replacements necessary to repair or correct *defects* in material or workmanship in your vehicle, but not design, during the warranty period at no charge to you in accordance with the terms and conditions of this warranty. All we ask is that you properly maintain and care for your vehicle and have warranty repairs performed by your authorized Mercedes-Benz Dealer. This new vehicle limited warranty, however, does not mean that your vehicle is or will be free from any defect.

It is also important to understand the difference between the term “defect” and “damage” as used in this warranty. “Defects” in materials or workmanship are covered by the manufacturer and Mercedes-Benz is responsible for such conditions. However, Mercedes-Benz has no control over damage or loss to a vehicle caused by certain *external* events, factors or conditions, including but not limited to, fire theft, collision, misuse or abuse, improper adjustments or repairs, lack of or improper maintenance, or environmental conditions (such as road debris, tree sap, road salt, hail or lightning, *etc.*) as described in more detail in

this warranty under the section ***Items that are not Covered***. Accordingly, loss or damage resulting from such external events, factors or conditions, for whatever reason, is not covered under this Warranty.

In addition, parts and components can and do fail or deteriorate for reasons unrelated to a defect in materials or workmanship. For instance, normal wear and tear of certain vehicle parts or components (brakes, windshield wipers) is not the result of a defect in those parts or components. Moreover, certain vehicle conditions (such as noise or vibrations) can be a normal operating characteristic or condition of the vehicle.

Mercedes-Benz is committed to ensuring your complete satisfaction with your vehicle and ownership experience. Accordingly, it is important that you ensure your vehicle is properly maintained and serviced by bringing your vehicle to an authorized Mercedes-Benz Dealer where specially trained technicians and advisors can inspect and carry out any necessary repairs or corrections to your vehicle, including warranty repairs and corrections.

MAINTENANCE SERVICES ARE NOT COVERED UNDER THE NEW VEHICLE LIMITED WARRANTY AND IT IS THE OWNER'S RESPONSIBILITY TO PROPERLY MAINTAIN THE VEHICLE IN ACCORDANCE WITH THE RECOMMENDED SERVICE SCHEDULE.

The service schedule may be found at mercedes-benz.ca.

Required maintenance or servicing must be performed to help ensure warranty coverage. When requesting service or repair work under warranty, you may be required to provide proof of any required maintenance or servicing (such as presenting repair invoices or receipts). Mercedes-Benz recommends keeping your repair invoices or receipts evidencing maintenance and servicing performed on your vehicle and providing such proof of maintenance to any subsequent owner of the vehicle.

If the owner has a warranty claim and can show through receipted invoices that the vehicle has received the required servicing, the Dealer will perform the warranty work without charging for parts and labor. It is the responsibility of the owner to demonstrate that proper maintenance and servicing has been performed on the vehicle and it is the responsibility of the Dealer to determine whether the required maintenance or service has been performed.

Mercedes-Benz' obligation is limited to repair or replace, at its option, parts or components that are determined to be defective. Repairs and adjustments covered by these warranties will be made at no charge for parts and labour. In the event of defective assemblies or components, either new or remanufactured parts or components may be used in the repair. Any part or component replaced during a repair will become the property of Mercedes-Benz. Warranty repairs do not constitute an extension of the new vehicle warranty period for the vehicle. However, any parts or components replaced under this warranty will be warrantied for 90 days or the balance of the new vehicle warranty, whichever is greater, regardless of the number of kilometers on your vehicle at the time the warranty repair takes place (or for such time as may be required by law).

The term "adjustments" as used in the warranty relates to minor repairs normally not connected with the replacement of parts. The warranty covers adjustments necessary to correct defects. For example, if a part should become loose or misaligned during normal use or service, it will be corrected without charge any time during the 12 months or 20,000 kms (the "**Adjustment Period**").

The term “Wear and Tear” as used in the warranty relates only to halogen lights, brake pads, discs and wear sensors and only if the parts are defective or worn out. These parts will be replaced without charge anytime during the 24 month or 40,000 km Wear and Tear Period. **NOTE:** If these parts are damaged or worn due to racing or competitive driving events, accident, misuse or lack of maintenance, which is beyond our control, these damaged parts are not covered under this term.

Insurance Write-Off; or Repaired or Replaced Parts

Any vehicle determined by the vehicle insurer to be a “total loss”, “write off” or equivalent is not covered by this warranty. This includes but is not limited to vehicles branded as “salvage”, “scrap”, “dismantled” or any similar title under any province’s law.

In addition, any parts repaired or replaced under an insurance claim or required as a result of factors or events that are not covered under this warranty (see “Items Which Are Not Covered”, **page 9**), including but not limited to any loss or damage due to accident, misuse, abuse or negligence, and, in any case, any consequential damage to the vehicle, is not covered by this warranty.

Theft Relevant Parts

Certain anti-theft relevant parts require special training and tools to ensure proper installation and calibration. Improper installation and/or control of such anti-theft parts may increase the risk of vehicle theft and/or other fraudulent acts. Accordingly, to help ensure the security of our customers and their vehicles, anti-theft parts are only available from an authorized Mercedes-Benz dealer.

Paint and Other Appearance Items:

Defects in paint, trim or other appearance items are normally addressed during the new vehicle preparation or inspection by your Dealer. If you find paint or appearance concerns with your vehicle, please advise your Dealer as soon as possible as damage due to use and environmental factors including exposure is not covered by the warranty.

Please follow the instructions in your Operator’s Manual regarding the proper care of paint, upholstery, trim items and convertible tops, as applicable, to maintain your vehicle and warranty coverage.

Body Repair Information

Collision repairs or paint or bodywork are never welcome but should your vehicle require collision or body work, Mercedes-Benz Canada has in place a network of certified collision and body repair facilities that can perform any necessary collision repairs or paint and bodywork on your vehicle.

Mercedes-Benz strongly recommends that repairs due to collision or accident damage or other paint or bodywork be performed by an Mercedes-Benz certified or authorized collision repairer that has the necessary tools, equipment and training and that will use genuine Mercedes-Benz parts and components during the repair to help restore your vehicle to its pre-accident or collision condition.

While you may choose to have collision or accident damage or paint or bodywork repaired by another collision repair or paint facility, any damage or malfunction caused by repairs not carried out in accordance with Mercedes-Benz’ repair instructions or procedures or otherwise not performed properly will not covered by this New Vehicle Limited Warranty.

Should your vehicle require paint work/body repair or if you have any questions please contact your Dealer or call 1-800-387-0100.

Tires

Tires are warranted by the tire manufacturer. As many Dealers are also authorized tire dealers, they may be able to assist you to obtain tire adjustments.

Customer Repair Orders:

Your Dealer will give you a copy of the repair order for all warranty repairs performed. Please keep this copy with your vehicle records.

Battery Limited Warranty

General

This Battery Limited Warranty (“**Battery Coverage**”) supplements the warranty coverage for the lithium-ion battery in a Mercedes-EQ vehicle provided under the New Vehicle Limited Warranty (“**Vehicle Warranty**”). This Battery Coverage is separate from and in addition to the terms and conditions set out in the Vehicle Warranty. Depending on your model, it is equipped with one or two main batteries. The service life of the battery(s) depends on the condition of charge.

Items That Are Covered:

For warranty claims specific to battery capacity, the replacement battery will be in a condition appropriate to the age and mileage of the vehicle sufficient to achieve or exceed the minimum battery capacity for the remainder of the warranty period of the original battery. Note that the vehicle’s range estimates are not a perfect measure of battery capacity because vehicle range is affected by a number of additional factors apart from battery capacity. The measurement method used to determine battery capacity, and the decision of whether to repair, replace, or provide reconditioned or re-manufactured parts, and the condition of any such replaced, reconditioned, or re-manufactured parts, are at the sole discretion of Mercedes-Benz.

BATTERY COVERAGE: Mercedes-Benz warrants the certified lithium-ion battery in a Mercedes-EQ vehicle to the original and each subsequent owner for:

- Any repairs or replacements necessary to correct defects in material or workmanship to the battery arising after the expiration of the Vehicle’s Warranty.
- Any repair or replacement of the battery if the battery’s capacity drops below:
204 Ah (EQE), 192 Ah (EQS), 133 Ah (EQB), 66Ah (eSprinter, code E2T), 88Ah (eSprinter, code E4T) 204 Ah (EQE SUV), 197 Ah (EQS SUV) during the Battery Coverage.

OWNER’S RESPONSIBILITY:

It is the owner’s responsibility to maintain the vehicle according to the applicable Maintenance Schedule provided. All required maintenance services must be carried out to maintain the Battery Coverage provided herein valid.

If you drive the vehicle less than 300 km per month, mostly for short distance trips or if it is not driven for more than three (3) weeks at a time, it is your responsibility to have the battery’s state of charge checked. Please observe the battery charging instructions set out in the Operator’s Manual.

BATTERY COVERAGE PERIOD:

The Battery Coverage starts on the same Warranty Start Date as the New Vehicle Limited Warranty as provided above. (→ Page 17).

For any battery maintaining its certified status (as described above), the length of this Battery Coverage is:

- 8 years/160,000 kilometers (whichever occurs first) for EQB and eSprinter.
- 10 years/250,000 kilometers (whichever occurs first) for EQE, EQE (SUV), EQS, and EQS (SUV).

AVAILABILITY OF BATTERY COVERAGE: This Battery Coverage is subject to the same geographic restrictions as set out in the Vehicle Warranty above, including restrictions against the applicability of the Battery Coverage outside of Canada.

LITHIUM-ION BATTERY CAPACITY COVERAGE:

The battery is warranted to maintain at least 204 Ah (EQE), 192 Ah (EQS), 133 Ah (EQB), 204 Ah (EQE SUV), 197 Ah (EQS SUV), 66Ah (eSprinter, code E2T), 88Ah (eSprinter, code E4T) for the duration of this warranty (depending on the vehicle model). The coverage under this warranty includes any repairs required to maintain the battery's minimum capacity. If possible, the battery's components will be repaired or replaced and the original battery returned to the vehicle. However, as necessary, the battery will be replaced, at the option of Mercedes-Benz, with either a new or remanufactured lithium-ion battery. Any repair or replacement may not return the battery to an "as new" or 100% energy capacity but will have at least the following capacity (depending on the model) 204 Ah (EQE), 192 Ah (EQS), 133 Ah (EQB), 204 Ah (EQE SUV), 197 Ah (EQS SUV), 66Ah (eSprinter, code E2T), 88Ah (eSprinter, code E4T).

- Failure to repair an existing problem or otherwise properly maintain the vehicle

NO COVERAGE FOR INSURANCE WRITE-OFF; OR REPAIRED OR REPLACED PARTS: As with the Vehicle Warranty, Battery Limited Warranty does not provide warranty coverage where the vehicle has been determined to be a “total loss”, “write off” or equivalent. This includes but is not limited to any vehicle branded as “salvage”, “scrap”, “dismantled” or any similar title under any province’s law.

In addition, any parts repaired or replaced under an insurance claim or required as a result of factors or events that are not covered under the New Vehicle Limited Warranty or this Battery Limited Warranty (including but not limited to, any loss or damage due to accident, misuse, abuse, or negligence, *etc.*) and, in any case, any consequential damage to the vehicle, is not covered by this Battery Limited Warranty.

Obligations of the purchaser

1. The purchaser shall bear all expenses associated with the operation of the high-voltage battery, particularly electricity costs and insurance premiums. Maintenance and repair costs shall be assumed by the purchaser only if they are not assumed by Mercedes-Benz in accordance with the “Items That Are Covered” section.

2. The purchaser is responsible for ensuring that the high voltage battery is used exclusively as energy storage for the electric drive vehicle and is handled according to the manufacturer’s operating instructions. In particular, the purchaser is obliged to the following:

- The vehicle with a high-voltage battery must always be stored in accordance with the instructions for battery care in the vehicle Owner’s Manual, provided that the high voltage battery is not connected to a power source.
- The high-voltage battery must be charged properly, i.e. only the approved/recommended charging cable for the vehicle may be used.
- The high-voltage battery must be charged, at the latest, within 14 days after the charge level of the high-voltage battery has reached zero (according to the charge level display in the vehicle).

3. The high-voltage battery must be treated with sufficient care and protected from damage. The Purchaser and each subsequent purchaser may not make any modifications (e.g. tuning) or improper repairs to the high-voltage on-board electrical system and its components (electric motor, power electronics, charging unit, heating, air conditioning, wiring or the high-voltage battery itself). The purchaser may connect additional consumers only in accordance with the vehicle Owner’s Manual. The purchaser shall ensure that the high-voltage battery is only used in a roadworthy and reliable condition.

4. The purchaser is obliged to have maintenance work carried out on the vehicle with high-voltage battery, including service and additional maintenance work, in accordance with Mercedes-Benz specifications within the indicated period, so that the necessary maintenance as well as wear and tear repairs can be correctly performed on the high-voltage battery. The service due date is displayed to the purchaser in the instrument cluster of the vehicle.
